

Nevada 211 Inclusion/Exclusion Policy

Purpose

Money Management International (MMI), on behalf of the Nevada Division of Aging and Disability Services (ADSD) (as the oversight agency of the Nevada 211 program), maintains a comprehensive online Information and Referral (I&R) resource database which contains information about available community resources including details about the services provided and the conditions under which services are available.

To ensure that the needs of the community are met, ADSD and MMI have established the following policy for the inclusion or exclusion of organizations and programs in the Nevada 211 resource database.
